

# NATURE ART

SPRING CAMP MAGRUDER ONLINE

TODAY IS FRIDAY APRIL 10, 2020

## Materials:

- paper
- glue
- marker or pencil
- leaves
- flowers
- twigs

## Instructions:

1. Think about what you want to create: A landscape? How about an underwater or galactic landscape? A portrait? Is it a self-portrait? The portrait of a family member? Your pet? Think outside the box and be creative!
2. Collect leaves, flowers, and twigs to make the different elements of your creation. For example, a leaf can become a fish or an eye, while a flower can be a planet or a nose!
3. Arrange your elements on your piece of paper. Once you're happy with how it looks you can start gluing them.
4. If your creation needs additional details, add them with a pencil or marker.
5. Bonus step: Share your creation on social media and tag us @CityOfHyattsville or #CampMagruderHVL
